Preamble

The Bachelor of Education programme, generally known as B.Ed., is a professional course that prepares teachers for Upper Primary/ Middle (VI-VIII), Secondary (IX-X) and Senior Secondary (XI-XII) Levels.

Vision for Teacher-Education:

Teacher-education is in need of sensitizing to enhance quality of training in the emerging globalized and diversified demands of the school system. For this it must prepare the teacher for the role of being an encouraging, supportive and humane facilitator in teaching-learning situation to enable learners (students) to discover their talents, realize their physical and intellectual potentialities to the fullest, and to develop character and desirable social and human values needed to function as global responsible citizens; and to be able to realize this vision, teacher-education programme is designed with these Programme Educational Objectives (PEO)

Programme Educational Objectives (PEO):

1. **PEO 1:** to understand the way learning occurs and to create plausible situations conducive to learning;
2. **PEO 2:** to attain a sound knowledge base and proficiency in language;
3. **PEO 3:** to pursue an integrated model of teacher-education for strengthening the professionalization of teachers;
4. **PEO 4:** to make productive work a pedagogic medium for acquiring knowledge in various subjects, developing values and learning multiple skills..
5. **PEO 5:** to gain first hand experience of school activity by engaging student teachers as interns in lab schools

Programme Outcomes (PO):

After completion of B.Ed programme the student teacher will:

- 1) View knowledge as personal experience constructed in the shared context of teaching-learning, rather than embedded in the external reality of textbooks;
- 2) Facilitating student in acquiring knowledge in its truest sense
- 3) Be sensitive to the social, professional and administrative contexts in which they need to operate;
- 4) Develop appropriate competencies to be able to not only seek the above-mentioned
- 5) Understanding in actual situations, but also to create them;
- 6) Identify their own personal expectations, perceptions of self, capacities and inclinations;
- 7) Consciously attempt to formulate one's own professional orientation as a teacher in situation specific contexts;
- 8) View appraisal as a continuous educative process;
- 9) Develop an artistic and aesthetic sense in children through art education;
- 10) Address the learning needs of all children, including those who are marginalised and disabled;
- 11) Develop the needed counselling skills and competencies to be a facilitator for and helper of children needing specific kinds of help in finding solutions for day-to-

day problems related to educational, personal and social situations gained through internship activities.

The present B.Ed. Curriculum/syllabus shall be designed to integrate the study of subject knowledge, Human development, Pedagogical knowledge and communication skills.

(ENHANCING PROFESSIONAL CAPACITIES)
UNDERSTANDING SELF

Total Marks - 50 Credits - 2	Theory Marks - 30 Credit Hours: 15	Practical Marks -20 Credit Hours : 30
---------------------------------	---------------------------------------	------------------------------------------

The **objective** of this course is to develop understanding of student-teachers about themselves – the development of the self as a person and as a teacher, through conscious ongoing reflection. The course would be transacted through a **workshop mode** by more than one resource persons. The course will address aspects of development of the inner self and the professional identity of a teacher. This shall enable student-teachers to develop sensibilities, dispositions, and skills that will later help them in facilitating the personal growth of their own students while they teach.

It is important for student-teachers to develop social relational sensitivity and effective communication skills, including the ability to listen and observe. The course will enable student-teachers to develop a holistic and integrated understanding of the human self and personality; to build resilience within to deal with conflicts at different levels and learn to create teams to draw upon collective strengths.

The course will make use of personal narratives, life stories, group interactions, film reviews – to help explore one's dreams, aspirations, concerns, through varied forms of self-expression, including poetry and humour, creative movement, aesthetic representations, yoga etc.

Practical Activities: Prepare report on the following activities:

- Conduct case studies on different children who are raised in different circumstances and how this affected their sense of self and identity formation.
- Biographies/stories of different children who are raised in different circumstances and how this affected their sense of self and identity formation.
- Watch a movie/documentary where the protagonist undergoes trials and finally discovers her/his potential despite odds.
- Issues of contemporary adolescence/youth need to be taken up as student-teachers first need to understand themselves; and themselves in relation to their students and classroom situations.
- Any other.
